

AZENIS FK520L

Falken's Flagship Model

Pursuing a Finely Tuned Balance

Between Grip Strength &

High Performance on Wet Roads

FEATURES

- Ultra precise handling with exceptional stability and control at most speeds
- Technology transfer from motorsports by adapting design components from AZENIS race tyres
- Added safety provided by significantly shorter braking distances in wet and dry conditions
- Enhanced damping comfort and further reduced noise level
- Optimised rolling resistance for better economy

Sustainable Materials

Round Profile

Hybrid Band

Chaotic Array

Optimized Contact Patch

Aero-design

Nano Black

01 CORNERING PERFORMANCE

The larger blocks on the outer side of the tread grip the road firmly when cornering, empowering the driver to control the vehicle at will.

02 WET PERFORMANCE

Designed to enhance overall performance on wet roads, the distinctive wide grooves bring together wet performance and high-speed steering stability without sacrificing either for steadfast driving on rainy days.

03 LONG-LIFE PERFORMANCE

A newly developed rubber compound extends performance life for longer lasting high performance on both dry roads and wet roads.
