

AZENIS FK510

Summer Ultra High Performance

Falken's latest generation ultra high performance summer tyre, the AZENIS FK510 is designed for drivers of premium vehicles looking for excellent grip and outstanding performance. 4D Nano Design enables Falken engineers to optimize new high-performance compounds at the molecular level, enhancing both wear and wet weather traction.

Featuring hybrid undertread materials, the FK510 delivers confidence-inspiring handling and stability. The FK510 covers a wide range of today's luxury sport vehicles, including staggered applications, and is available in sizes ranging from 17 to 22-inch.

FEATURES

< TENSION CONTROL TECHNOLOGY

Is a proprietary casing mold shape that provides a more flexible middle sidewall area to absorb shock while providing enhanced handling capability via the rigid outside shoulder tread and bead area of the sidewall.

< 4D NANO DESIGN TREAD COMPOUND

Provides excellent traction and durability through advanced biomass materials, which helps improve tread flexibility and adhesion while simultaneously reducing polymer heat generation.

< ADAPTIVE CONSTANT PRESSURE (ACP) PATTERN DESIGN

Provides enhanced tyre tread to road surface pressure distribution, improving both directional stability and vehicle-stopping distances.

< HYBRID UNDERTREAD CAP PLY

Provides added rigidity and high-speed stability through the use of both aramid and nylon materials.

< SWITCHBACK SIPING

Helps optimize contact surface while cornering in wet conditions, penetrating the water surface and enhancing cornering performance.

< VARIABLE SIPE DEPTH

Across the surface of the tread allows for controlled flexibility while maintaining overall block rigidity.

< WIDE SHOULDER BLOCKS

Enhance high-speed cornering and lateral grip.

< FOUR CIRCUMFERENTIAL GROOVES

Efficiently disperse water and enhance hydroplane resistance.

AZENIS FK510
