

GI-378 TRUCK TYRE

Durable Wide Single Designed for On & Off-Road Service

The GI-378 provides an exceptional balance of on-road stability and off-road traction.

On the road, the specially designed tread pattern provides optimal traction and handling while the wide outer ribs provide stability even under heavy loads.

Off the road, the stone drilling prevention features keep debris from penetrating the casing.

Up to 20-ply rated for extra load carrying capacity, the GI-378 is cost-effective solution for on and off-road service.

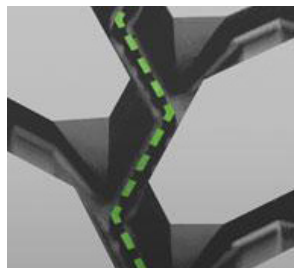

FEATURES AND BENEFITS

- All position tyres designed for on road service

Highway Service

WIDE OUTER RIBS
Provide on-road stability.

STONE DEFENSE FEATURES
Effectively minimize rock and pebble packing to protect the belt package and casing from stone drilling.

CUT AND CHIP RESISTANT TREAD COMPOUND
Comprised of a much softer compound that is flexible to prevent puncture during ride on rough terrain.

ON/OFF APPLICATION
