

WILDPEAK MT01

Harsh conditions, pavement, mud, snow or rocks

Trusted by the pros to take on the harshest conditions, the tough WILDPEAK M/T is built to get you there and back whether you're on the pavement, mud, snow or rocks. The M/T features Falken's proprietary three-ply DURASPEC™ Sidewall Technology developed to sustain the most punishing off-road conditions.

DURASPEC™ also features two high ply turn-ups that provide an additional layer of protection and durability. An aggressive upper sidewall provides additional traction at low air pressures on rugged terrain.

The WILDPEAK M/T also features exceptional road manners thanks to an optimised variable three-pitch tread pattern and precision manufacturing technology.

FEATURES

RUGGED AND RIGID TREAD BLOCKS >

Feature step-down supports on the center blocks to provide tread-pattern rigidity in the contact patch, enhancing stability and handling while preventing stones from becoming trapped in the grooves.

MUD AND ROCK DEFENSE FEATURES >

Shed mud from the tread grooves to prevent loss of traction, ensuring maximum grip while preventing rocks from puncturing the base of the tread.

< AGGRESSIVE UPPER SIDEWALL

Along with offset shoulder blocks protect the tyre from sharp rocks and provide additional off-road traction at low tyre pressures or in off-camber situations.

< OPTIMISED TREAD PATTERN

With three variable pitches positions the tread blocks to provide an exceptionally quiet ride.
