

## WILDPEAK A/T AT3WA

Engineered for - Any Adventure - Any Time - Any Weather

### FEATURES AND BENEFITS

- Cutting Edge Tread Design combined with a silica tread compound for even wear, snow traction and wet performance
- Excellent all-terrain performance, the best ever from Falken, thanks to its robust construction and cutting edge manufacturing
- Low noise emission and high ride comfort on road
- Improved self-cleaning effect in all small and large grooves
- Rugged characteristics and true all-season usability

### OPTIMISED TREAD PATTERN

**Product Feature:** Centre rib with zig-zag design and ribbed shoulder grooves creating additional angles and edgers as well as a more irregular pattern structure

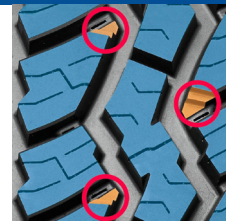

**Benefit:** Improved traction on and off the road - Enhanced grip in mud and harsh weather condition - Superb self-cleaning properties

### RIGID TREAD BLOCKS

**Product Feature:** Long and wide tread blocks in centre area and profile blocks with stepdown feature

**Benefit:** Increasing pattern rigidity and stiffness - Even pressure distribution in footprint - Increased braking performance and traction on loose unstable surfaces

### RUGGED SHOULDER AND UPPER SIDEWALL DESIGN

**Product Feature:** Aggressive upper sidewall feature along with offset shoulder blocks

**Benefit:** Stepdown shoulder and tooth design in upper sidewall - Creating more gripping edges for more traction in off-road situations - Protects tyre from sharp rocks
