

## ZIEX ZE310R eCORUN

### High Performance eCORUN

#### THE LATEST IN HIGH PERFORMANCE

- < Long Life
- < Excellent Noise Level
- < Excellent Handling
- < Ride Comfort

\* 3-Groove design for 195mm width tyre sizes and smaller to maximize profile stiffness and increase tyre footprint.

\* 4-Groove design for 205mm width tyres and larger to increase water evacuation and enhance straight-line wet performance.

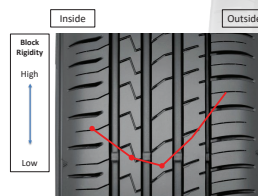

### FEATURES

#### < HIGH PERFORMANCE PROFILE

**PRODUCT FEATURE** - Wide straight grooves\* - **FUNCTION** - Efficient water evacuation - **BENEFIT** - Safety and confident driving in wet conditions.

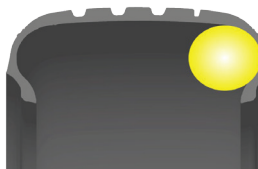

#### < CUTTING-EDGE PATTERN DESIGN

**PRODUCT FEATURE** - Optimized block rigidity distribution - **FUNCTION** - Maintains consistent contact with the road surface - **BENEFIT** - Excellent handling stability.

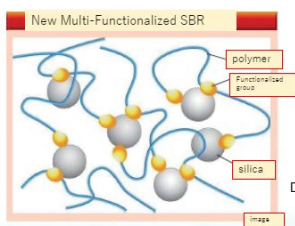

#### < CUTTING-EDGE PATTERN DESIGN

**PRODUCT FEATURE** - Adopt new pattern with a larger number of blocks - **FUNCTION** - Disperse shocks from the road to suppress vibration - **BENEFIT** - Excellent noise level.

#### < ADVANCED CASING DESIGN

**PRODUCT FEATURE** - More circular profile for improved sidewall flexibility - **FUNCTION** - Good handling response, especially under sudden load shifts - **BENEFIT** - High levels of comfortable driver confidence - More balance overall driving characteristics.

A New Tire Material Development Technology

#### < TREAD COMPOUND

**PRODUCT FEATURE** - New multi-functionalized p increases silica distribution and the bonding points between silica and the polymer - **FUNCTION** - More flexibility to silica on a monocular scale and restrain unnecessary heat generation - **BENEFIT** - Better mileage - Excellent traction and grip on wet and dry roads.
