

WILDPEAK A/T TRAIL

Rugged Crossover Capability Engineered for Adventure

The WILDPEAK A/T TRAIL is built for adventure, delivering rugged off-road capability without compromise on the open road. Engineered to match the dynamic characteristics of modern crossovers, the A/T TRAIL strikes the perfect balance between aggressive off-road traction and dependable all-weather performance.

Durable 2-ply polyester construction and rugged upper sidewall features protect the A/T TRAIL from off-road terrain, while an optimized tread design helps to maintain the efficiency and versatility of a modern CUV.

FEATURES

CROSSOVER-SPECIFIC CAPABILITY >

Crossover-specific design matches a CUV's unibody construction and higher center of gravity to provide enhanced handling year-round.

< ALL-WEATHER TRACTION

3D Canyon Sipe Technology and increased tread depth provide more winter traction than a traditional all-season tyre.

OFF-ROAD DURABILITY >

Durable 2-ply polyester construction and rugged upper sidewall features protect the tyre from sharp rocks and off-road terrain.

< ON-ROAD DEPENDABILITY

An optimized tread design features Falken's silica-enriched tread compound to deliver superior wear life over a wide range of operating temperatures.
