

WILDPEAK AT3W

Aggressive off-road ability without compromise on pavement

The WILDPEAK A/T is engineered for adventure, any time and in any weather. The tyre combines aggressive off-road ability and rugged terrain driving without compromise on the pavement. An optimised tread design combined with a silica tread compound enables the tyre to excel in three areas: wear, winter, and wet performance.

The tyre is packed with technology, from Falken's patented 3D Canyon Sipes to an all-new proprietary lower sidewall. Full-depth sipes and grooves maintain consistent performance and appearance throughout the life of the tyre.

FEATURES

HEAT DIFFUSER TECHNOLOGY >

In the lower sidewall dissipates heat to protect the internal tyre components. Keeping this critical area of the tyre cool ensures vehicle stability even when towing or carrying heavy loads.

< 3D CANYON SIPE TECHNOLOGY

Interlocks the shoulders to resist wear from high torque as well as providing additional handling stability.

RUGGED AND RIGID TREAD BLOCKS >

Feature support ramps and step-down features that provide tread-pattern rigidity in the contact patch, enhancing vehicle stability and handling while also preventing stones from becoming trapped in the grooves.

< AGGRESSIVE UPPER SIDEWALL

Along with offset shoulder blocks protect the tyre from sharp rocks and provide additional off-road traction at low tyre pressures or in off-camber situations
