

## WILDPEAK R/T01

### Maximum Traction for On and Off Road Adventure

- New hybrid tread design combines the best of A/T and M/T and introduces a further 4x4 model to enhance the product portfolio.
- Outstanding mileage, even for heavy pickups and 4x4s.
- Ultra-resilient, coping with the toughest challenges on and off the road.
- Rugged sidewall design – improves tyre performance.
- Professional Off Road tyre with POR marking.

### FEATURES

#### > TECTONIC SHAPED TREAD BLOCKS - PRODUCT FEATURE:

- > Standout tread design with high functionality

#### FUNCTION:

- > High block stiffness and contact patch with step-down design
- > Numerous block edges that "mesh" effectively with road surface

#### BENEFIT:

- > A/T properties for excellent grip on and off asphalt roads plus extreme durability

#### > OFFSET SHOULDER BLOCKS - PRODUCT FEATURE:

- > Offset and open shoulder blocks with stone ejectors

#### FUNCTION:

- > Extra gripping edges to enhance traction in soft, slushy conditions and rough, stony terrain
- > Stone ejectors prevent stones from lodging in tread

#### BENEFIT:

- > M/T properties deliver improved grip in the toughest terrain

#### > RUGGED SIDEWALL DESIGN - PRODUCT FEATURE:

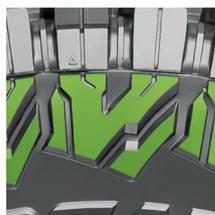

- > Tough, rugged upper sidewall design

#### FUNCTION:

- > Provides further gripping edges on loose, soft surfaces
- > Reinforces sidewalls

#### BENEFIT:

- > Protects the tyre from stone and rock damage
- > Enhances control and traction in driving
- > Creates an attractive, ultra-modern impression
