

WILDPEAK AT4W

Aggressive off-road ability without compromise on pavement

WILDPEAK A/T4W

From backcountry trails to the open road, the all-new **Wildpeak A/T4W** is built to help you tackle any terrain. Featuring staggered shoulder blocks, and proprietary 3-ply DURASPEC Sidewall Technology on select sizes, the **A/T4W** provides all-terrain confidence and rugged durability.

Updated Heat Diffuser technology, tread rigidity, and the addition of Heavy Duty (HD) sizes ensure the **A/T4W** delivers improved towing capability compared to its predecessor.

The severe-snow-rated **A/T4W** was engineered to perform in harsh winter conditions, with full-depth sipes providing traction for the life of the tyre.

Command any road and every adventure with the **Wildpeak A/T4W**.

FEATURES

HOW IS THE WILDPEAK A/T4W DIFFERENT FROM THE WILDPEAK A/T3W? >

The A/T4W comes with all the same features and capabilities you love from the A/T3W but with improvements in several areas and more available sizes.

The A/T4W contains an updated tread design, a more durable sidewall, staggered shoulder blocks, and an all-new rubber compound that provides increased longevity and comfort on the pavement, improved resistance to wear, and better traction in diverse terrains in all weather conditions.

This new compound, heavy-duty construction, along with the addition of Heavy Duty (HD) sizes ensures that the A/T4W delivers improved towing capability at higher load capacities and higher tyre pressures.

The Wildpeak A/T4W also features updated Heat Diffuser technology that offers additional stability by dissipating heat from within the tyre, allowing for stability while towing at full load.

WHAT ARE THE ADVANTAGES OF HAVING 3-PLY DURASPEC TECHNOLOGY OVER 2-PLY? >

3-ply DURASPEC technology provides a thicker and stiffer sidewall construction compared to its 2-ply counterpart. This means that the 3-ply construction is built to endure harsher off-road conditions for farther distances.

The 3-ply DURASPEC technology was previously only available on our Wildpeak M/T and Wildpeak R/T tyres, so we're proud to introduce this feature to an all-terrain tyre as well.
