

ZIEX CT60 A/S

Premium All-Season Performance and Safety for Crossovers

The **Falken ZIEX CT60 All-Season tyre**, specifically designed for modern crossover utility vehicles, provides a combination of long tread life and all-weather safety. Featuring advanced all-season tread compound technology, drivers will experience shorter stopping distances in wet and snowy weather, providing a more durable, trustworthy tyre year-round.

The **Falken ZIEX CT60** is designed to accommodate the ride height of modern crossover platforms that would otherwise be sacrificed by tyres developed for passenger cars or pickups. The crossover-specific tyre construction ensures the tyre footprint is always firmly in contact with the road, providing optimal handling, stability and defense against rough weather conditions and other obstacles.

The new **ZIEX CT60** is available in more than 30 original equipment tyre sizes, covering virtually every crossover vehicle on the road today.

FEATURES

< LONG TREAD LIFE FOR CROSSOVERS

3D Canyon Sipes interlock the shoulder blocks to resist wear commonly associated with crossovers due to their higher center of gravity.

< EXCEPTIONAL WET PERFORMANCE

Four wide circumferential grooves resist hydroplaning by quickly evacuating water through the tread pattern providing secure contact with the road in heavy rain.

< INCREASED HANDLING FOR CROSSOVERS

Asymmetric tread pattern consisting of polygonal-shaped inside grooves that provide more edges to increase wet and snow traction, is combined with a high-rigidity outside shoulder rib that delivers the handling and stability necessary for CUVs.

< ALL-SEASON SAFETY

Silica enriched tread compound delivers superior wear life and wet performance over a wide range of operating temperatures.
